Dreadful, dreadful! Who, pray, are the deprayed authors of these vicious productions? Surely not John Hay, or Dana, or Carl Schurz, or Washington Irving, or good English.

Perhaps these works might be (if Mr. Pender will pardon the expression) "fired" on stylistic grounds.

But a total lack in the London school libraries of "lives" of these great Americans of English blood would certainly be taken as indicating a corresponding lack of brains in the education committee. Even Mr. Pender might find himself written down an ass by intelligent British opinion, which has long given up what Sidney Smith called the "pitiful affection of despising America:
